# Steam Inspires Us.

HAAN has a single passion: Steam.

The HAAN Corporation has been developing and perfecting steam-cleaning technology and engineering clean for more than a decade.

HAAN is proud to introduce a new product line of trendsetting, durable, easy-to-use steam cleaners that continue to raise industry standards. All HAAN products are developed using Smart Steam Technology to ensure sophisticated engineering, sleek design and quality that will last a lifetime.

As the industry leader in the steam-cleaning segment, the HAAN Corporation is committed to advancing steam technology and developing products that stay ahead of consumer and retail trends and expectations.

FEATURING  
**Smart Steam™**  
Technology

Smart Steam Technology enables every HAAN to deliver a superior cleaning experience from the time the box is opened. All products have a sophisticated design, but it's what is behind the sleek exterior that gives HAAN its advantage. Machine-powered pumps, water heaters, steam jets and Ultra-Microfiber cleaning pads have been engineered specifically for each model to kill up to 99.9% of household germs, bacteria and dust mites, providing an exceptional clean.
